## ABOUT ME

I am a dedicated and detail-oriented undergraduate student currently pursuing a Bachelor's degree from Patna College, Patna University, with an expected graduation in 2026. Passionate about both creativity and technology, I have developed strong skills in content editing, programming (Python, SQL, Java), and problem-solving.

My academic journey has helped me cultivate a disciplined mindset and a willingness to take on new challenges. I hold multiple certifications that reflect my continuous drive for learning and self-improvement. Known for being adaptable, hardworking, and a good communicator, I strive to contribute effectively in team environments while also excelling independently.

Fluent in Hindi and English, I enjoy activities that fuel both personal and intellectual growth, such as dancing, reading, and listening to music.

## INTERNSHIP/JOB SIMULATION

### 2025    Electronic Arts (EA) Software Engineering Program (Forage)

- Proposed a new feature for EA Sports College Football and wrote a detailed feature proposal.
- Created a class diagram and header file in C++.
- Implemented an optimized data structure to fix a bug.

### 2025    AWS APAC Solutions Architecture virtual experience program on Forage

- Designed and simple and scalable hosting architecture based on Elastic Beanstalk for a client experiencing significant growth and slow response times.
- Described my proposed architecture in plain language ensuring my client understood how it works and how costs will be calculated for it.

### 2025    Deloitte Australia Data Analytics Job Simulation on Forage

- Completed a Deloitte job simulation involving data analysis and forensics technology.
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions
